Dear friends concerned for migratory birds,

We successfully accomplished the first **Synchronized Count for Migratory Cranes and Waterbirds in spring of 2014** on March 29. Many volunteers went to different wetlands to survey birds from Bohai Bay to Hulunbeier in the morning of this day. We are editing the result of those surveys, this brief reported the information of some synchronized count sites, other synchronized count sites which not sent back the data please share your data as soon as possible! Next brief will report the result of second synchronized count. And the third synchronized count will start on May 5, 2014, don't forget.

Best wishes.
